

# Netherlands Scheme for Certification in the Area of IT Security (NSCIB)

Nederlands Schema  
voor Certificatie op het  
gebied van IT-Beveiliging  
(NSCIB)

## *NSCIB public PGP keys*

Report title	NSCIB public PGP keys
Date of issue	1 September 2017
Version	1.0
Distribution	Public
Filename	NSCIB public PGP keys.docx

## 1 Introduction

This document lists the PGP/GPG public keys that are used by the certifiers in the NSCIB scheme. They are provided in this document as the current NSCIB website does not provide the facilities for files with extensions other than .doc or .pdf to be published.

Entities are requested to copy each key into a separate text file with a .asc extension and to import these files in their key ring. Alternatively these keys can be requested via email via [nscib@nlncsa.nl](mailto:nscib@nlncsa.nl) or through the licensed evaluation facility of their choice.
