

Price list for Certification under the Netherlands Scheme for Certification in the area of IT Security (NSCIB)
Version: 1.0 - 1 January 2021
Introduction:

NSCIB is the Dutch Scheme for Certification in the area of IT security and has been set up to enable the Evaluation and Certification of security aspects of Information Technology. The objective of the Scheme is that IT products and systems in the Netherlands can be evaluated and certified in a way that conforms to the so called 'Common Criteria', an international methodology (ISO/IEC 15408 (all 3 parts) and ISO/IEC 18045) for Evaluation and Certification and therefore, by signing the CCRA and SOGIS-MRA provides mutual recognition of certificates on an international level. Details and preconditions can be found in the published NSCIB Scheme documentation, version 2.5 (<https://www.tuv-nederland.nl/common-criteria/documents/scheme-documentation.html>).

Other advantages:

Use of highly qualified auditors
